

**Advances in weight-based CT contrast protocols and radiation dose management for Safer and Smarter Imaging**

**14 Oct 2025, Tuesday**

16:30-18:00 Singapore time, 17:30-19:00 Japan time

**Bayer Asia Pacific  
CT Solution Webinar**

You are invited to join us for an exclusive webinar on

**"Advances in weight-based CT Contrast protocols and radiation dose Management for Safer and Smarter Imaging"**

**Date: 14 Oct 2025, Tuesday, 16:30-18:00 (Taiwan Time)**

**Register Now**

This webinar is designed specifically for radiographers and radiologists working in a CT suite, and it will provide valuable insights into the latest advancements in CT technology that are shaping the future of patient care.

During this webinar, you will have the opportunity to:

- Learn about the implementation, rationale and clinical benefits of weight-based iodine dosing for patients in Japan, including its impact on image quality and diagnostic accuracy.
- Understand how the integration of Smart Protocols with Centargo, highlighting workflow improvements, patient care enhancements and personalized dosing through case-based discussion.
- Discuss the role of Radimetrics in radiation and contrast dose monitoring and management and identify practical steps and considerations for implementing Radimetrics in a clinical setting, including departmental readiness and operational tips.
- Engage in a Q&A session with our expert presenter to address any specific questions or concerns you may have.

**Time Table**

5 mins      Opening remarks  
Speaker: Bayer

40 mins      **Advances in weight-based CT Contrast protocols: perspectives from Okayama University Hospital, Japan**  
Speaker: Mr. Yusuke Morimitsu

30 mins      **Importance in the role of radiation and contrast dose monitoring and management in Japan**  
Speaker: Mr. Yusuke Morimitsu

10 mins      Q&A

5 mins      Wrap up  
Speaker: Bayer

**Speakers**

**Mr. Yusuke Morimitsu**

Chief Radiological Technologist (CT) Department of Medical Technology, Radiology Division Okayama University Hospital, Japan

We believe that this webinar will provide valuable knowledge and insights that can directly benefit your professional practice and contribute to improved patient care outcomes.
